

Under the Circumstances: A Womans Guide to a Surrendered Heart

When asked how they are doing, its not unusual for people to reply, Pretty good, under the circumstances. And yet, living under the circumstances can be a frustrating, unsatisfying, and even overwhelming existence. So many people feel trapped under the circumstances of life. But do the circumstances of life-whether theyre good or bad-have to determine how life is lived? Judy Hampton insists that Christians dont have to be trapped under the circumstances of life. She illustrates how God uses the circumstances of life both to bring His light into a dark world and to reveal areas in an individuals life that dont reflect His character. And He uses circumstances to conform His children into the image of His Son. With a blend of Scripture and personal anecdotes, Judy Hampton gives readers the tools to change their view of their circumstances from a purely human perspective to Gods perspective. Its a change of view that allows readers to respond appropriately to the things life throws their way-living above the circumstances instead of under them.
