

## Access 2007: Advanced [With 2 CDROMs] (ILT)

This ILT Series course, rated 4.9/5.0 in overall quality by ProCert Labs, builds on the skills and concepts taught in Access 2007: Intermediate. Students will learn how to query with SQL; create crosstab, parameter, and action queries; create macros; import, export, and link database objects; work with XML documents; work with Windows SharePoint Services; optimize databases; password-protect and encrypt databases; set Access options and properties; create hyperlink fields; and use Outlook 2007 to update data. Comes with CertBlaster exam prep software (download) and a companion CBT program. Designated as Approved Courseware for the Microsoft Certified Application Specialist program, this course will help students prepare for the Access 2007 exam (77-605). For comprehensive certification training, students should complete Access 2007: Basic, Intermediate, and Advanced.
