

Testbeds and Research Infrastructure: Development of Networks and Communities: 9th International ICST Conference, TridentCom 2014, Guangzhou, China, ... and Telecommunications Engineering)

This book constitutes the proceedings of the 9th International Conference on Testbeds and Research Infrastructures for the Development of Networks and Communities, TridentCom 2014, held in Guangzhou, China, in May 2014. The 49 revised full papers presented were carefully selected out of 149 submissions. The conference consisted of 6 symposia covering topics such as testbed virtualization, Internet of Things, vehicular networks, SDN, NDN, large-scale testbed federation, mobile networks, wireless networks.

Bilhanan Silverajan - Tampere University of Technology Testbeds and Research Infrastructure: Development of Networks and Communities Social Informatics and Telecommunications Engineering pp 496-505 . 9th International ICST Conference, TridentCom 2014, Guangzhou, China, Institute of Software Chinese Academy of Sciences, Beijing, China 20. **Network Measurement Virtual Observatory: An - Springer Link** Testbeds and Research Infrastructure: Development of Networks and Communities. 9th International ICST Conference, TridentCom 2014, Guangzhou, China, Sciences, Social Informatics and Telecommunications Engineering Vol. research infrastructures for the development of networks and communities, 1 January. **Research on Cloud Computing in the Application of the Quality** Testbeds and Research Infrastructure: Development of Networks and Communities Institute for Computer Sciences, Social Informatics and Telecommunications Engineering pp 338-347.
