

Algorithms and Complexity: 5th Italian Conference, CIAC 2003, Rome, Italy, May 28-30, 2003, Proceedings (Lecture Notes in Computer Science)

The papers in this volume were presented at the 5th Italian Conference on Algorithms and Complexity (CIAC 2003).

The conference took place during May 28-30, 2003, in Rome, Italy, at the Conference Centre of the University of

Rome La Sapienza. CIAC started in 1990 as a national meeting to be held every three years for Italian researchers in algorithms, data structures, complexity theory, and parallel and distributed computing.

Due to a significant participation of foreign researchers, starting from the second edition, CIAC evolved into an international conference.

However, all the editions of CIAC have been held in Rome. The proceedings of CIAC were published by World Scientific for the first edition and by Springer-Verlag in the Lecture Notes in Computer Science series (volumes 778, 1203 and 1767) for the subsequent editions. A selection of the papers of the fourth edition was published in a special issue of Theoretical Computer Science Vol. 285(1), 2002.

This year we expect to publish an extended version of selected papers presented at the conference in a special issue of the journal Theory of Computing Systems. In response to the call for papers for CIAC 2003, 57 papers were submitted, from which the Program Committee selected 23 papers for presentation at the conference from 18 countries.

Each paper was evaluated by at least three Program Committee members with the help of 63 external reviewers. In addition to the selected papers, the Organizing Committee invited Charles E.

Leiserson (Cambridge), David Peleg (Rehovot), Michael O. Rabin (Cambridge and Jerusalem), John E.

Savage (Providence), and Luca Trevisan

(Berkeley) to give plenary lectures at the conference. Moreover, three tutorials by David Peleg, Jayme L. Szwarc?ter (Rio de Janeiro) and Luca Trevisan were offered in the days preceding the conference. We wish to express our appreciation to all the authors of the submitted papers, to the Program Committee members and the referees, to the Organizing Committee, and to the plenary and tutorial lecturers who accepted our invitation.
