

International Technology Robotics Applications: Proceedings of the 2nd INTERA Conference, held in Oviedo, Spain, March 2013 (Intelligent Systems, Control and Automation: Science and Engineering)

This book presents the latest scientific research related to the field of Robotics. It involves different topics such as biomedicine, energy efficiency and home automation and robotics. The book is written by technical experts and researchers from academia and industry working on robotics applications. The book could be used as supplementary material for courses related to Robotics and Domotics.
