

God Gave Us a Promise: The Story of a Little Fighter

Imagine any number of parents going into shock after realizing their infant was born with a heart defect. Born with hypoplastic left heart syndrome (HLHS), Jeremiah Wolf touches the lives of many. Phillip and his wife, Patience, undergo a transformation during the care for their son. They take on a professional knowledge that requires them to face a responsibility that would change their lives forever. Parents will gain knowledge of HLHS and understand its deadly effects from this first-time fathers narrative. Readers will realize how parents of a child who is diagnosed with a heart anomaly are cast into a world of confusing realities. For Phillip and Patience, their dedication in caring for Jeremiah becomes an example of human compassion and bravery. As for others who display individual effort, it often contains a hidden message and a plea for assistance. God Gave us a Promise is one such message.
