

Big Sur and the Oranges of Hieronymus Bosch

In his great triptych *The Millennium*, Bosch used oranges and other fruits to symbolize the delights of Paradise. Whence Henry Miller's title for this, one of his most appealing books; first published in 1957, it tells the story of Miller's life on the Big Sur, a section of California coast where he lived for fifteen years. Big Sur is the portrait of a place one of the most colorful in the U.S. and of the extraordinary people Miller knew there: writers (& writers who didn't write), mystics seeking truth in meditation (& the not-so-saintly looking for sex-cults or celebrity), sophisticated children & adult innocents; geniuses, cranks & the unclassifiable. Henry Miller writes with a buoyancy & brimming energy that are infectious. He has a fine touch for comedy. But this is also a serious book, the testament of a free spirit who has broken through the restraints & clichés of modern life to find within himself his own kind of paradise.
