

# THE HUNGRY (but, lazy) MANS RECIPE BOOK, and other assorted stuff

Jim Porters hilarious, but highly functional, mans cookbook is now available in ebook format. You will have a great time reading, as well as applying, this humor masterpiece. It is a quality cookbook, with a tongue-in-cheek approach that makes it great reading, too! Illustrated with cartoon drawings for even more fun. The cookbook covers food men like, emphasizing the easy approach to preparation and (ugh) later clean-up. It has a detailed chapter on the history and techniques of meat smoking and real Bar-B-Que, to include regional information, sauces, rubs and sops. This book supports the long-suspected fact that, if one is lazy enough, one can live out of a crock-pot!
