

Losing My Mind: Dark Secrets of a Wounded Healer

David Mirich has a terrible secret. From growing up in an abusive household to becoming a hard-working Psychologist, Dr. David Mirich has spent his whole life working through the terrible guilt brought on by one terrible night. How does someone overcome hurting another person in an unfortunate experiment of youth? That's the question Dr. David Mirich has tried to figure out for years, along with whether or not all the problems he had faced up to that point justified his tragic actions. Until now. Dr. David Mirich has been around the world, worked with troubled people through his psychological practice, helped immigrants find their place in America through his work as an expert witness, and has established a successful home and business in the state of Colorado. He has two children, and a mind that always is searching for answers and understanding. *Losing My Mind: Dark Secrets of a Wounded Healer* is his incredible memoir about the journey to become the complex yet enduring survivor that he is today.
