

My Defense

My defense is a true-but-forbidden-to-tell story that covers the lonely fight of a family father of now five mixed children, and his beloved wife, how he had to defend their children from being kidnapped and killed if not complying with what the murky characters known as D. H. had been ordering this father to write in his forced upon ghostwriter role, addressing a military corporation to pay a ransom for already looted top secret paper documents. This family father was being set up, both from those D. H. characters, and then from the legal system in this so-called advanced European country. Since it covers the vast range from national security, legal malpractice, framing of a family, forced upon consultant mission, forced upon ghostwriting, lethal threats, confined aftermath, it will hopefully appeal to a multitude of different people, warning them to heed early signs they might be targeted soon to be framed...
