

# Algorithms - ESA99: 7th Annual European Symposium, Prague, Czech Republic, July 16-18, 1999 Proceedings (Lecture Notes in Computer Science)

The 7th Annual European Symposium on Algorithms (ESA 99) is held in Prague, Czech Republic, July 16-18, 1999. This continued the tradition of the meetings which were held in 1993 Bad Honnef (Germany) 1994 Utrecht (Netherlands) 1995 Corfu (Greece) 1996 Barcelona (Spain) 1997 Graz (Austria) 1998 Venice (Italy) (The proceedings of previous ESA meetings were published as Springer LNCS volumes 726, 855, 979, 1136, 1284, 1461.) In the short time of its history ESA (like its sister meeting SODA) has become a popular and respected meeting. The call for papers stated that the Symposium covers research in the use, design, and analysis of efficient algorithms and data structures as it is carried out in computer science, discrete applied mathematics and mathematical programming. Papers are solicited describing original results in all areas of algorithmic research, including but not limited to: Approximation Algorithms; Combinatorial Optimization; Computational Biology; Computational Geometry; Databases and Information Retrieval; Graph and Network Algorithms; Machine Learning; Number Theory and Computer Algebra; On-line Algorithms; Pattern Matching and Data Compression; Symbolic Computation.
