

Make Amazing Games in Minutes (Charles River Media Game Development)

Many game enthusiasts have aspirations to create their own games but don't know where to start. *Make Amazing Games in Minutes* introduces the game creation process to the aspiring game developer with no experience or programming ability. Taking the reader step-by-step through the various stages of developing a game and using the popular drag and drop game creation software included on the CD-ROM, the reader can build his very own games. Using the tutorials and step-by-step methods, the reader will complete a fully playable retro game, as well as platform, bat & ball, and side-scrolling shoot-em up games. Other chapters cover more complex game features such as adding effects and scoreboards, porting the game onto the Web, and installation script building. This must-have book is the essential resource for anyone interested in learning game creation and the retro game style.
