

Career Tips & Hints...for a Great CV: Insider Secrets for Writing Quality CVs

So you've sent out umpteen CVs to various employers and heard nothing, and you don't know what is wrong with them (or you?). Why won't they interview you? Are they just being incredibly picky? Did anyone there actually read your CV? Why don't they ever tell you why you don't appeal to them???? What are you doing wrong? *** If you are stuck on the CV roundabout, there's help at hand. *** This e-book will not only show you what to put in your CV (which most e-books out there will do, more or less) but, in addition, we will also show you the view from the employer - and why certain information should be included or excluded. We share insider secrets of how employers think about the CVs that they receive, what they are actually looking for and how to apply that knowledge to your skills and experience so your CV meets their needs (and yours in the long run too!). *** Just as you don't want to offer a pork meal to a Jew, beef ragout to a vegetarian or alcohol to a Muslim (or quiche to a real Aussie bloke - yep we're Australian :)); you don't want to offer a non-appealing CV to a prospective employer. You've just got to learn to serve up the right information to the right person. Easy! Feedback on our e-book so far: I have just read your ebook. Wow - what a great, easy read. There is so much information in there - and as I said, easy to read - and takes the stress out of resume writing. It really does break it down and I like the way you have incorporated all the background information in there on what employees are looking for - and reminded us that they too are human! I have been procrastinating all weekend about getting started on amending my CV - and now I am about to! Hi Karen I actually like that it's written in conversational style. It feels like there's really a person behind the book. Yes, feel free to use any of the words I write about the ebook I think it's a useful tool for people in all professions. It really

The Views of our Pre-publish Readers (There were six people who cleared it before publication) Ive had a read through this morning, it all does make sense, and I cant fault it. :) I think it reads beautifully. I am of course flabbergasted by the quality of advice. Makes sense... I find your presentation clear, accessible and entertaining! So, Bravo. Nothing to add. Its good Karen. Very good. I love your humour. It is pleasing to get some smile when reading such a serious topic. The text presents the employers perspective and it is excellent, because it is important to think about we are not used to and it changes the whole philosophy. Looks good. ...it was great to read.
