

Component-Based Software Engineering: 10th International Symposium, CBSE 2007, Medford, MA, USA, July 9-11, 2007, Proceedings (Lecture Notes in Computer Science)

Providing all the latest on a topic of extreme commercial relevance, this book contains the refereed proceedings of the 10th International ACM SIGSOFT Symposium on Component-Based Software Engineering, held in Medford, MA, USA in July 2007. The 19 revised full papers presented were carefully reviewed and selected from 89 submissions. The papers feature new trends in global software services and distributed systems architectures to push the limits of established and tested component-based methods, tools and platforms.

An Execution-Level Component Composition Model Based on Component-Based Software Engineering: 10th International Symposium, CBSE 2007, Medford, MA, USA, July 9-11, 2007, Proceedings. Front Cover.
