

Dormer on Deduction: Inferential Reasoning in the Play of the Cards at Bridge (Master Bridge Series)

Why do bridge players so often fail to make the right decisions? The answer to successful card play lies in correct thinking and in asking the right questions. Albert Dormer, internationally respected both as a player and as a writer of great distinction, shows how, through the use of deduction, bridge players can greatly enhance their card play and enormously increase their pleasure in this fascinating game.
