

## Fashion Images de Mode, No. 6

Place all the fashion photographs taken in a given year end to end, and what you have is a very long, very misleading footpath back to the blunt centre. Alternately, every year Fashion Images de Mode filters out the same-old-same-old set pieces and the rehashed mediocrity to deliver the cutting edge of world fashion images - all in one building. Globally recognized as a leading brand in fashion and photography, the rigorously selected shoots form a style bible for the year, crossed with a crystal ball into the coming seasons. Edited by Lisa Lovatt-Smith, this years deluxe swagbag of sexy, shouty and brilliantly subtle victories for human decor features a meditation on the fine art of androgyny by Mariuccia Casadio with illustrations from Annette Aurell, an in-depth look at the legacy of Jean Loup Sieff by Tiggy Maconochie and the personal choice of uber-chic photographer Terry Richardson. With a preface by Rankin and photographic contributions from David LaChapelle, Elaine Constantine, Katerina Jebb, Andrea Giacobbe, Warren du Preez and Nick Thornton Jones, this years publication is as haute directional as it gets. Fashion Images de Mode: a thing of beauty and a resource forever.
