

THE BROTHERS FROM BUDAPEST

An intriguing and evocative read, *The Brothers from Budapest* by composer and award-winning writer Franceska Molnar delivers a powerful portrait of the Depression Era and the complicated landscapes of a life of crime and brotherhood. In equal measures heartbreaking, tender and sincere, this compelling narrative reveals the challenges of immigrants in the first half of the twentieth century and exposes how thin blood ties can be. No strangers to mayhem, Hungarian-born John and Eddie immigrate to the Windy City and bring all their tricks of the trade with them. Bred on misfortune and contempt, it is no wonder that the brothers wreak a little havoc on their new home. Beginning with a well-timed and perfectly executed robbery, the duo turns to counterfeiting to weather the Great Depression. When their luck runs out, rather than combining forces, one brother will forsake the other and an awe-inspiring international manhunt begins. Told with a third-person sweeping narrative that is both edgy and wise, Molnar's fast-paced and clever novel is as quick witted and bold as it is savvy. Based on a true story, her impressive debut is one of the finest.
