

## FoxPro X Developers Handbook

A 3-in-1 resource for FoxPro programmers and developers. It offers a complete course on how to develop and write business and accounting systems using the FoxPro programming language; a full featured, ready-to-use, accounts receivable system that handles sales invoices, customer accounts and statements; and a detailed FoxPro language reference. The system design and programming course is keyed into the accounting system and language reference, so as to speed the readers acquisition of a sound understanding of FoxPro.
