

Impeachment of Andrew Johnson

While it is commonly known that Andrew Johnson was the first president to be impeached, less well known are the circumstances that led to the unsuccessful campaign to remove him from office. This account of Johnsons political life in Washington (including brief coverage of his early career in Tennessee) focuses on his conflict with the Radical Republicans, a group of fanatical abolitionists who, after Lincolns assassination, sought to dominate American government and punish the South as harshly as possible. Johnsons focus on healing the nation and his refusal to submit to the Radicals demands led to his impeachment. Though Johnson was acquitted, his impeachment clearly illustrates the danger when one branch of government tries to dominate the others. This chronicle of the first U.S. presidential impeachment covers in detail the political forces that nearly removed him from office. Numerous illustrations, a bibliography and an index are included.

Why Was Andrew Johnson Impeached? (U.S. National Park Service) On May 16, 1868, the Senate voted 35 to 19 to remove President Andrew Johnson from office one vote short of the necessary two-thirds. For many of these 54
