

JMP 12 Basic Analysis

JMP 12 Basic Analysis covers the initial types of analyses that you often perform in JMP, such as univariate, bivariate, and oneway analyses. Creating tables of summary statistics with the Tabulate platform is included along with approximating sampling distributions using bootstrapping. Find information about how to clean up your data before performing analyses.

Matched Pairs Analysis - JMP jmp statistical DiscoveryFromsas Basic Analysis JMP 12 - - - Version 12 Basic Analysis The real voyage of discovery consists. Front Cover. **JMP 12 Basic Analysis - SAS** JMP 12 Basic Analysis covers the initial types of analyses that you often perform in JMP, such as univariate, bivariate, and oneway analyses.
