

# Nursing Wit and Wisdom: Truths, Humor and Wisdom from the Stethoscope to the Bedside

Nurses have the unique privilege to have a backstage pass to our patients and families journeys. In the process, we teach, listen, clean up things only your mother or a toxic waste company would touch, and love to wake up doctors in the middle of the night. And hopefully, we inspire and share our wisdom along the way. The journey is not only for them, but for us as well. Our own journey as nurses has been seeded by what we experience. Do you see them as gifts or challenges? Can both inspire you? I hope so! This is a perfect companion for nurses, nursing students, medical students and all those who share in a nurses life. Share it with someone! Inspire and Be Inspired, Nightingales!
