

Modelling in Molecular Biology (Natural Computing Series)

Presents new mathematical and computational models as well as statistical methods for the solution of fundamental problems in the biosciences. Describes how to find regularities among empirical data, as well as conceptual models and theories.

Modelling in Molecular Biology Gabriel Ciobanu Springer Algorithmic Aspects of Bioinformatics (Natural Computing Series) This book introduces some key problems in bioinformatics, discusses the models used to formally After introducing the basics of molecular biology and algorithmics, Part I **Discrete and Topological Models in Molecular Biology (Natural** Buy Modelling in Molecular Biology (Natural Computing Series) on ? FREE SHIPPING on qualified orders. **Discrete and Topological Models in Molecular Biology (Natural** Modelling in Molecular Biology. Part of the series Natural Computing Series pp 267-286.
