

S-PLUS 2000: Moderns Statistics and Advanced Graphics

S-PLUS offers unparalleled power and flexibility, allowing you to create innovative cutting-edge analyses that lead to better results. S-PLUS combines the ease-of-use of standard Microsoft Office-compatible programs with state-of-the-art visualization techniques and a comprehensive set of classical and robust statistical functions. The new version, S-PLUS 2000 offers updated statistical techniques, powerful interactive visualization features, more data manipulation capabilities, and all new project management tools. This Academic Version has the same program functionality as the full version, with merely a size restriction to 20,000 datapoints.
