

Microsoft Windows 98 Step by Step Learning Kit

The MICROSOFT(r) WINDOWS(r) 98 STEP BY STEP LEARNING KIT is an integrated training kit for Windows 98 users. Microsoft Press(r) Learning Kits provide users with instruction through both print-based and multimedia-based hands-on learning. This unique learning combination gives learners the best teaching method for their learning objectives, all in one integrated kit. The step-by-step training, used for those lessons that work best in print, is cross-referenced to the multimedia training, which provides both conceptual lessons and hands-on instruction. The CD contains a unified index/search feature, which also helps make the Learning Kits useful as reference products.
