

# Nicholas of Cusa: A Medieval Thinker for the Modern Age (Waseda/Curzon International Series)

Nicholas of Cusa (1401-64), doctor of canon law, church politician and philosopher, was one of the most important thinkers of 15th century Europe. This year marks the sixth centenary of his birth. Scholars from round the globe gathered in Tokyo for the 19th Cusanus Congress last year; this volume makes their contributions more widely available. Major themes examined include tradition and innovation, religion, the relevance of Nicholas of Cusa's thought for today, the relationship between East and West in his thought, and the development of his thought and scholarship as we enter a new millennium. Multilingual text: English, German, French.
