

## Perspectives on the Philosophy of Wittgenstein

A milestone in Wittgenstein scholarship, this collection of essays ranges over a wide area of the philosopher's thought, presenting divergent interpretations of his fundamental ideas. Different chapters raise many of the central controversies that surround current understanding of the *Tractatus*, providing an interplay that will be particularly useful to students. Taken together, the essays present a broader and more comprehensive view of Wittgenstein's intellectual interests and his impact on philosophy than may be found elsewhere. The thirteen chapters treat topics from both periods of Wittgenstein's work: More than half are devoted to his early thought, the *Tractatus Logico-Philosophicus* of 1921, reflecting a growing interest today among philosophers in reexamining this seminal book, while three chapters treat the *Philosophical Investigations*, published posthumously in 1953. The remaining chapters discuss such nonstandard topics (about which Wittgenstein left some provocative but unsystematic notes) as philosophy of religion, aesthetics, and anthropology. Contents: The Early Wittgenstein and the Middle Russell, Kenneth Blackwell; Frege and Wittgenstein, Michael Dummett; Wittgenstein and the Theory of Types, Hide Ishiguro; The So-called Realism of Wittgenstein's *Tractatus*, Brian McGuinness; The Logical Independence of Elementary Propositions, David Pears; The Rise and Fall of the Picture Theory, Peter Hacker; The Picture Theory and Wittgenstein's Later Attitude to It, Erik Stenius; Wittgenstein's Early Philosophy of Mind, Anthony Kenny; A Theory of Language?, G. E. M. Anscombe; *Im Anfang war die Tat*, Peter Winch; Wittgenstein's Full Stop, D. Z. Phillips; Quote: Judgments from Our Brain, Paul Ziff; Wittgenstein and the Fire Festivals, Frank Cioffi, Index. Irving Block is Associate Professor in the Philosophy
