

matplotlib Plotting Cookbook

Learn how to create professional scientific plots using matplotlib, with more than 60 recipes that cover common use cases. About This Book Learn plotting with self-contained, practical examples that cover common use cases. Build your own solutions with the orthogonal recipes. Learn to customize and combine basic plots to make sophisticated figures. Who This Book Is For If you are an engineer or scientist who wants to create great visualizations with Python, rather than yet another specialized language, this is the book for you. While there are several very competent plotting packages, matplotlib is just a Python module. Thus, if you know some Python already, you will feel at home from the first steps on. In case you are an application writer, you won't be left out since the integration of matplotlib is covered. What You Will Learn Discover how to create all the common plots you need. Enrich your plots with annotations and sophisticated legends. Take control of your plots and master colors, linestyle, and scales. Add a dimension to your plots and go 3D. Integrate your graphics into your applications. Automate your work and generate a large batch of graphics. Create interactive plots with matplotlib. Combine your plots to create sophisticated visualizations. In Detail matplotlib is part of the Scientific Python modules collection. matplotlib provides a large library of customizable plots and a comprehensive set of backends. It tries to make easy things easy and hard things possible. You can generate plots, add dimensions to the plots, and also make the plots interactive with just a few lines of code with matplotlib. Also, matplotlib integrates well with all common GUI modules. This book is a head-first, hands-on journey into matplotlib, the complete and definite plotting package for Python. You will learn about the basic plots, how to customize them, and combine them to make

sophisticated figures. Along with basic plots, you will also learn to make professional scientific plots. In this book, you will start with the common figures that are offered by most plotting packages. You will learn how to add annotations, and play with styles, colors, scales, and shapes so that you can add personality and visual punch to your graphics. You will also see how to combine several graphics. With this book you will learn how to create sophisticated visualizations with simple code. Finally, you can make your plots interactive. After reading matplotlib Plotting Cookbook, you will be able to create the highest quality plots.

Matplotlib Plotting Cookbook by Alexandre Devert **Reviews** First Steps In this chapter, we will cover: Installing matplotlib Plotting one curve Using NumPy Plotting multiple curves Plotting curves from file data Plotting points

Matplotlib Plotting Cookbook: Alexandre Devert: 9781849513265 First Steps In this chapter, we will cover: Installing matplotlib Plotting one curve Using NumPy Plotting multiple curves Plotting curves from file data Plotting points

Plotting curves from file data - matplotlib Plotting Cookbook [Book] Matplotlib Plotting Cookbook has 4 ratings and 3 reviews. Hudan said: We are often get confused with text book that provides very complex materials and h

matplotlib Plotting Cookbook, Alexandre Devert, eBook - Mar 26, 2014 Discover how easy it can be to create great scientific visualizations with Python. This cookbook includes over sixty matplotlib recipes together

Setting the aspect ratio - matplotlib Plotting Cookbook [Book] Editorial Reviews. About the Author. Alexandre Devert. Alexandre Devert is a scientist, currently matplotlib Plotting Cookbook Kindle Edition. by Alexandre

Adding a legend - matplotlib Plotting Cookbook [Book] No part of this book may be reproduced, stored in a retrieval system, or transmitted in any form or by

- Selection from matplotlib Plotting Cookbook [Book]

Downloading - source url Mar 26, 2014 The NOOK Book (eBook) of the matplotlib Plotting Cookbook by Alexandre Devert at Barnes & Noble. FREE Shipping on \$25 or more!

Plotting boxplots - matplotlib Plotting Cookbook [Book] First Steps In this chapter, we will cover: Installing matplotlib Plotting one curve Using NumPy Plotting

Selection from matplotlib Plotting Cookbook [Book]

matplotlib Plotting Cookbook - Safari Books Online We might have our own preferences of what convenient colors are. We might want to have figures

- Selection from matplotlib Plotting Cookbook [Book]

Cookbook/Matplotlib - SciPy wiki dump Find helpful customer reviews and review ratings for Matplotlib Plotting Cookbook at . Read honest and unbiased product reviews from our users.

Controlling the output resolution - matplotlib Plotting Cookbook [Book] Chapter 7. Working with 3D Figures

In this chapter, we will cover the following topics: Creating 3D scatter plots Creating 3D curve plots Plotting a scalar :

Customer Reviews: Matplotlib Plotting Cookbook First Steps In this chapter, we will cover: Installing matplotlib Plotting one curve Using NumPy Plotting multiple curves Plotting curves from file data Plotting points

Plotting triangulations - matplotlib Plotting Cookbook [Book] Chapter 1. First Steps In this chapter, we will cover: Installing matplotlib Plotting one curve Using NumPy Plotting multiple curves Plotting curves from file data

matplotlib Plotting Cookbook by Alexandre Devert NOOK Book Adding a title Lets start with something simple: adding a title to a graphic. How to do it The following code will add a title to the figure: import
