

# Coding and Cryptology: Proceedings of the International Workshop, Wuyi Mountain, Fujian, China, 11-15 June 2007 (Coding Theory and Cryptology)

Over the past years, the rapid growth of the Internet and World Wide Web has provided great opportunities for online commercial activities, business transactions and government services over open computer and communication networks. However, such developments are only possible if communications can be conducted in a secure and reliable manner. The mathematical theory and practice of coding theory and cryptology underpin the provision of effective security and reliability for data communication, processing and storage. Theoretical and practical advances in these fields are therefore a key factor in facilitating the growth of data communications and data networks. The aim of the International Workshop on Coding and Cryptology 2007 was to bring together experts from coding theory, cryptology and their related areas for a fruitful exchange of ideas in order to stimulate further research and collaboration among mathematicians, computer scientists, practical cryptographers and engineers. This post-proceedings of the workshop consists of 20 selected papers on a wide range of topics in coding theory and cryptology, including theory, techniques, applications, and practical experiences. They cover significant advances in these areas and contain very useful surveys.

**Proceedings of the First International Workshop on Coding and Cryptology** Theoretical and practical advances in these fields are therefore a key factor in The aim of the International Workshop on Coding and Cryptology 2007 was to bring Proceedings of the First International Workshop on Coding and Cryptology, Wuyi Mountain, Fujian, China 11- Coding Theory and Cryptology **Proceedings of the First International Workshop on Coding and Cryptology** - Google Books Result Theoretical and practical advances in these fields are therefore a key factor in The aim of the International Workshop on Coding and Cryptology 2007 was to bring Proceedings of the First International Workshop on Coding and Cryptology, Wuyi Mountain, Fujian, China 11- Coding Theory and Cryptology **Coding and Cryptology: Proceedings of the International Workshop** Theoretical and practical advances in these fields are therefore a key factor in The aim of the International Workshop on Coding and Cryptology 2007 was to bring Proceedings of the First International Workshop on Coding and Cryptology, Wuyi Mountain, Fujian, China 11- Coding Theory and Cryptology **Proceedings of the First International Workshop on Coding and Cryptology** Theoretical and practical advances in these fields are therefore a key factor in The aim of the International Workshop on Coding and Cryptology 2007 was to bring Proceedings of the First International Workshop on Coding and Cryptology, Wuyi Mountain, Fujian, China 11- Coding Theory and Cryptology **Proceedings of the First International Workshop on Coding and Cryptology** (1st : 2007: Wuyi Mountains, China) Coding and cryptology : proceedings of the international workshop,
