

We, Chile: Personal Testimonies of the Chilean Arpilleristas

In 1994, more than 20 years after the military coup of 1973, I returned to Chile to speak with the arpilleristas. While the Chileans were electing the second president of a democratic regime (Eduardo Frei), I taped the testimonies of eight women whom I had not been able to forget during my years of exile in the United States. I recorded their stories so the pain and suffering of so many human beings would not be totally in vain and so that, upon reading their testimonies, we might learn the immeasurable worth of human rights and teach future generations to defend them throughout the world. --Emma Sepulveda.
