

Political portraits

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 Excerpt: ...the glorious rapture of the first meeting on the banks of the Niemen was never recaptured. What Napoleon in his amiable flattery called le style de Tilsit was dead and done with. Though in his patronage of Wieland and Goethe Napoleon proved himself once more the forerunner of romance in modern Europe, and once more did his best to dazzle the Tsar, the ancient charm had ceased to work. And there was Talleyrand, scheming for France against her Emperor, ready to pour the poison of dissension into Alexanders ear. Sire, said he, what do you come here to do? It is for you to save Europe, and you can succeed in that enterprise only by holding your own against Napoleon. The French people is civilised; its sovereign is not. The sovereign of Russia is civilised; his people is not: it is, then, the duty of the sovereign of Russia to become the ally of the French people. Such subtle counsel as this could not but have effect upon the mind of Alexander, whose youthful liberalism, combined with the influence of Speranski, the son of a pope and a violent reformer, suddenly appointed privy counsellor, convinced him that his duty was owed not to the French Emperor but to the Russian people. It was still Alexanders ambition to link Russia to the chain of Western civilisation--to create a nation, in fact, higher in its moral and intellectual level than that which the great Catherine had bequeathed to him. He saw at last that he could succeed in this purpose only by serving his own people and by putting away from his eyes the glamour of Napoleon. There remained his foolish attachment for the cause of the Prussians--poor miserable creatures, Napoleon called

them; and the loyal sympathy, which he preserved for the abject Frederick William, made still wider the breach whi...
