

How I Sold an iOS App for \$2,000 - As a High School Student

Do you want to be able to work from home? Have you always had an interest in mobile apps? If you answered yes to either of these questions, this is the book for you. It doesn't matter if you have any experience in programming or business because I will teach you from the ground up. I'll provide you with tips that I learned throughout my time creating apps since my sophomore year in high school. From great resources to learn how to program to the 10 steps for selling a successful app, you'll learn everything you need in order to have a successful mobile application business. Learn from my successes and mistakes including an app I sold for \$2,000 while in high school full time! I provide tons of valuable case studies so you can learn from events that actually happened to me. Live the life of your dreams and begin the iOS development lifestyle.
