

# Getting Started With the SAS System: Version 8 (Getting Started Series (Cary, N.C.))

Discover how easy it is to use the SAS System! With this book you will learn to perform basic SAS tasks by following simple, illustrated, step-by-step instructions. You will also learn how to use the updated SAS environment, access and manage data, present data in a variety of reports, and analyze data using several statistical methods. This book is intended for new users of the SAS System and for those who want to learn about the new features of the SAS interface. Supports releases 8.00 and higher of SAS software.
