

Karl Lagerfeld - Dreams: Stern Portfolio (Stern Portfolio Library of Photography)

This volume features photographic images by the fashion designer Karl Lagerfeld. Spanning all aspects of the genre from classic to avant-garde, these photographs - many of which have never been published before - recall the work of Atget, Richter and Peter Lindbergh. Scenes of Paris streets and buildings, fashion models, celebrities, nudes, still-lives and other objects of beauty provide insights into Lagerfeld's aesthetic. His eye captures the life of high fashion, whilst also possessing a reverence for the unexpected moment. Known for his exacting demands when designing and producing clothing, Lagerfeld is an equally precise photographer. These photographs demonstrate his technical skills, use of lighting and sense of composition.
