Teamed with the daughter of one of Bill Gattess closest associates, thirteen- year Microsoft veteran Marlin Eller illuminates every step along Gattess route to world domination and to Microsofts current headline-making federal antitrust case, making all thats been written before seem like a rough guess. Revealing the smoke-and- mirror deals, the launching of products that didnt exist, and the boneyard of once-thriving competitors targeted by the Gates juggernaut, this book demonstrates with often hilariously damning detail the Microsoft muddle that passes for strategic direction, offset by Gattess uncanny ability to come from behind to crush whoever is winning. Edstrom and Ellers unrivaled access to key players and their ability to get them to tell the real story makes for a rollicking roller-coaster ride of narrative journalism.
