

The Incredible Story of Suresh Kumar and Wheel of Hope

This is the story of one of the most incredible men I know. It is largely a vast photograph album with commentary ... I hope you will enjoy it . For nearly 15 years he has run Wheel of Hope India providing education and care for children from poor and dysfunctional families. I have written this book both as a tribute to him and also to highlight the work that he does for the Trust. In the pages of this book you will meet the children and families he helps and become aware of the terrible plight of some of the poorest people in India. You will also share with them the joy of having hope through the charity of achieving their full potential. The book included highlights of Sureshs personal life such as his wedding and the weighing of his first son Karthik and the main events during the history of the charity from its conception as a cricket club to bribe children to go to school to the wonderful Happy Home it runs today. I hope through the pages of this book you will catch more than just a glimpse of the joy at being involved in helping such children and their poor families and perhaps it might inspire you to contact us (details given at the end of the book) and arrange a visit. I can promise you it will be a trip of a lifetime and an experience you will never forget. Sadly there are all too few western tourists in South India and this is perhaps an indirect cause of the poverty that exists. I have started to write a series of books containing the most wonderful pictures (I have taken) of some of the most incredible places you will ever see. They too are available on Kindle just look up my name and you will find them. All the profits from this book and all my others go to the charity.
