

The Medusa File: Secret Crimes and Coverups of the U.S. Government

From World War II to present, there has been hidden within the highest levels of government secrets that you are not supposed to discover. During the period of 1940 to this day the power brokers, working from their positions of trust, have committed and then covered up the most heinous of crimes known to mankind. Investigative journalist Craig Roberts, author of Kill Zone--a Sniper Looks at Dealey Plaza, now provides us with the results of his ten -year investigation regarding the secret crimes and coverups of the U.S. Government. You will read his case files on such subjects as the Japanese Devil Unit 731 who experiments on American POWs in WWII with germ warfare weapons--and what happened when the war ended and the commanding officer was hired by the government instead of hanged for war crimes; Operation Paperclip in WWII when the U.S. brought Nazi scientists to America to work for us on our weapons programs instead of standing trial as war criminals; CIA and military mind control experiments on unsuspecting citizens--including children--without our knowledge; Secret drug and bacteriological weapons experiments on the American population; Atomic guinea pigs, Agent Orange, and the Gulf War Syndrome; what really happened to over 30,000 U.S. POWs after World War II, Korea and Vietnam; International assassinations, drug smuggling and money laundering; What the media did not tell you about the shoot down of TWA 800, the bombing of Pan AM 103, the Oklahoma City bombing, the crash of Arrow Air in Gander, Newfoundland, the derailment of the Sunset Limited in Arizona, the World Trade Center bombing in 1993, and much more.
