

The Teacher Who Couldnt Read

Here is the incredible true story of a smart kid who slipped through the system and became part of it. John Corcoran graduated from high school and college and went on to become a high school teacher--but he never learned how to read. Corcoran shares his amazing experiences of using deception to survive in a world of literates, and he clearly defines what schools, teachers, churches, and parents can do to conquer the little-known but widely spread disease of our educational system: illiteracy.
