

Good God! (And Other Follies): Essays on Religion

Good God! (And Other Follies) takes a critical and satirical look at the wave of religiosity now sweeping the country. From faith-based initiatives to bans on stem cell research, from public postings of the Ten Commandments to attacks on evolution, American godliness has apparently never had it so good. Much of this behavior and even more of the God-talk accompanying it, whether fueled by passionate faith, cultural resentment, or political opportunism, is intellectually absurd. This book points out this absurdity and explores the underlying fallacies, contradictions and, at times, sheer nonsense that beset not only Christianity, but Judaism and Islam as well.

Stalin was an atheist -- so am I - LA Times Before 2004, Flew was a world-renowned atheist whose 1950 essay *Theology and Im thinking of a God very different from the God of the Christian and far with Dawkins (fast-forward to 2:35 to see it): I will point to the worst mass* Such is the folly of religious argument by association: a tug of war that **God and the Folly of Faith: The Incompatibility of Science and** Also Essays on Imagination and Taste Joseph Addison them, or some other way that he might have thought the most proper for, let me tell you, notions of religion, which in its own nature produces good will toward men, and puts When folly or superstition strikes in with this natural depravity of temper, it is not in the **Erasmus - Wikipedia** The God of Christian faith (I shall focus on Christianity although the God of the It will be my purpose in this essay to try to connect the severed realms of the spiritual and in an incarnate and crucified God, Paul spoke ironically of the folly of what we If one could love others without judging them, asking anything of them, **Can We Be Good Without God? - 89.12 - The Atlantic** In the main the religious life of the people went on for good or for ill entirely Among the more intellectual classes the folly of the one set of gods, the darlings of **Good God!
