

## TOR browser: Guide for Beginners - How to Be Anonymous Online

The NSA hates Tor. So does the FBI. Even Google wants it gone, as do Facebook and Yahoo and every other soul-draining, identity-tracking vampiric media cartel that scans your emails and spies on your private browsing sessions to better target you. But there's hope. This manual will give you the incognito tools that will make you a master of anonymity! Other books tell you to install Tor and then encrypt your hard drive... and leave it at that. I go much deeper, delving into the very engine of ultimate network security, taking it to an art form where you'll receive a new darknet persona - how to be anonymous online without looking like you're trying to be anonymous online.
