

## Vietnam Veteran Films

This book examines the change in the narrative film image of the returned Vietnam veteran over time, from its initial appearance in the mid-1960s to the early 1990s. Vietnam veterans have appeared as characters in dozens of narrative feature films, from *Billy Jack* to *Wild at Heart*. These films are the primary resources of this study, and the book contains both a filmography of these films and a filmography of films set in Vietnam during the conflict (together by far the most comprehensive the author is aware of), as well as a bibliography of the period under examination.
